

# MMLIST Listserv User's Guide for ICORS.ORG

12/12/06 Version 1.1

To Send Mail to the Listserv:  
**[mmlist@listserv.icors.org](mailto:mmlist@listserv.icors.org)**

**Only Subscribed Users can send mail to the Listserv.  
Anyone can have a Subscription.**

The MM "Main List" MMLIST is "Open Subscription" - Anyone with an Email address can subscribe and gains full Member access. We do not require anything else of our subscribers. (With the one exception that we must ask that posts to the list and to fellow subscribers respect our User Policy.)

A copy of the User Policy can be found at: <http://www.moderation.org/onlinegroups.shtml>

To subscribe to this list, you must first have a login with ICORS.ORG.

## **Migrated Subscriptions:**

Some users are subscribed to the Listserv without having an ICORS.ORG login. This is because these accounts were migrated from our previous listserv. These users may want to create an ICORS.ORG login as well, as this will allow them to make changes to their account settings and to access the Listserv archives.

Below describes how you can create your ICORS login, subscribe to the MMLIST Listserv service, and manage your account.

**Assistance with your subscription is also available  
from the MM Main List Administrator Group,  
at this Email Address: [admin@moderation.org](mailto:admin@moderation.org)**

Connect to ICORS.ORG from any web browser, to:

**<http://listserv.icors.org>**

## **Below describes how you can:**

Create a login to ICORS.ORG.

Subscribe to MMLIST, to either join the list or to manage User Options.

Review and change User Options using your new ICORS Login.

Create a login.

Click on "Online list archives" on the ICORS listserv home page:

**L-Soft**  
international

**Welcome to listserv.icors.org!**

AMD Athlon 3700+, 2GB RAM, 74GB RAID

From this page you can access the following services:

- [Online list archives.](#)
- [CataList](#), the official online catalog of all the public LISTSERV® lists worldwide.
- [LISTSERV web list management interface](#) (account management functions for list owners – add, delete, search, query, set, *etc.*)
- [L-Soft's home page.](#)

LISTSERV is a registered trademark licensed to L-Soft international, Inc.  
LSMTP and L-SOFT are trademarks of L-Soft international.  
CataList and EASE are service marks of L-Soft international.  
Pentium is a registered trademark of Intel Corporation.  
All other trademarks, both marked and not marked, are the property of their respective owners.

You will see a list that includes many of the Listserv's supported at ICORS. Our listserv system, MMLIST is on this list. (Note that you must be a Subscriber to our listserv to access these archives.)

Click on Subscriber's Corner, in the top left.

**LISTSERV 14.5**

### Server Archives

### List Archives at LISTSERV.ICORS.ORG

From this page you can browse the online archives of the following mailing lists:

- [3D-PRO](#)  
An Icors List (651 subscribers)
- [A-PARENT-RUSS](#)  
APR - An EEAC List (3,223 subscribers)
- [AAGTorg](#)  
AAGT Leaders' Discussion (21 subscribers)
- [ABSTOUT](#)  
A Plant Sciences List (69 subscribers)
- [ADDULT](#)  
Adults with Attention Deficit Disorder (144 subscribers)
- [ADD\\_MED](#)  
Addiction Medicine (156 subscribers)
- [ADOPTees](#)  
Adoption Discussion List for Adult Adoptees (333 subscribers)

Now you are on the page where you can "Get a password" to ICORS.ORG.

This is the essential first step to access our MMLIST listserv user interface, and is required if you are adding a New Subscription.

Click on "[get a password](#)" in the text on the right.

**LISTSERV 14.5**

### Subscriber's Corner

### Welcome to Subscriber's Corner

On this page, you can see all the lists you are subscribed to. The list table can display selected subscription settings for each list.

You are not currently logged in. Before you can subscribe to any lists, or change existing list subscriptions, you will need to log in. If you already have a password on this server, you can [Log in](#). If you do not have a password yet, or have forgotten it, you can [get a password](#).

Once logged in, you can do the following:

- ◆ [Signoff](#) from one or more lists.
- ◆ [Change your subscription settings](#) on one or more lists.

This screen will create a new login at ICORS.ORG.

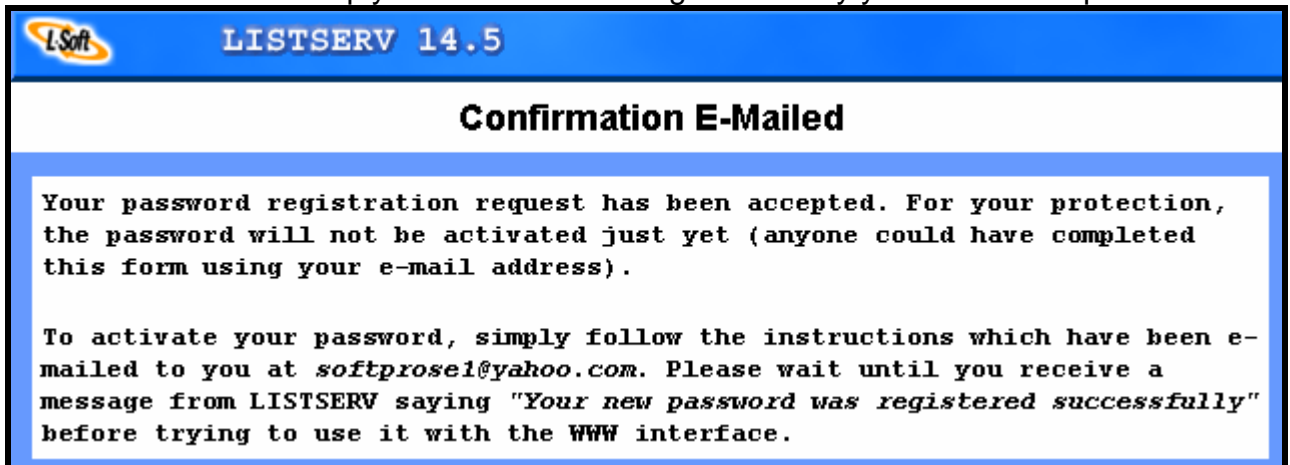

Enter the Email address you want to use for your User Settings at ICORS.ORG, and a password that you will use to manage your Listserv account. Note that you can create this login with a different Email address than the one you wish to receive the Listserv messages to. This is the only Password that is needed to set or change your user preferences for [mmlist@listserv.icors.org](mailto:mmlist@listserv.icors.org). (We suggest, to avoid confusion, that you use the same Email address for your ICORS.ORG login and for MMLIST.)

IF you already have a login with ICORS.ORG, but forgot your password, just enter your ICORS.ORG Email address and a new password here. After your Email account is verified, this will change this password.

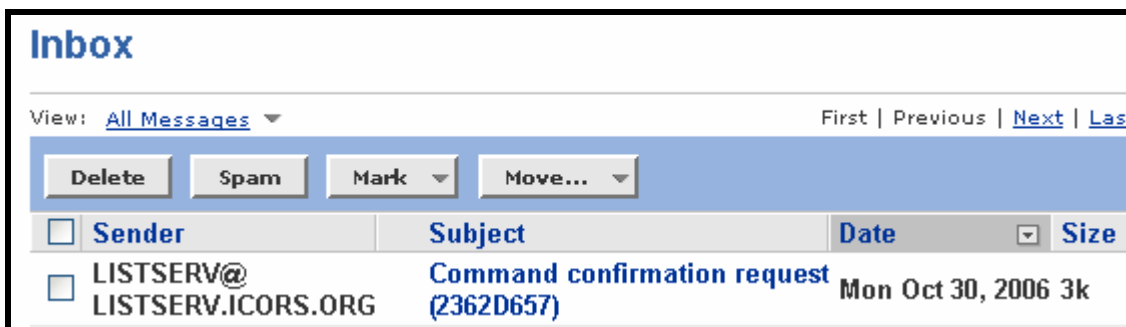

The screenshot shows the 'Registering your LISTSERV Password' form. At the top, there is a blue header with the LSoft logo and 'LISTSERV 14.5'. Below the header, the title 'Registering your LISTSERV Password' is centered. The main content area contains instructions: 'Please enter your e-mail address and the desired password, then click on the "Register Password" button. If you already had a LISTSERV password, but cannot remember what it was, this procedure will automatically replace your existing password with the new one you will be entering below.' There are three input fields: 'E-Mail Address:' with the value 'softprose1@yahoo.com', 'Password:' with a masked password of ten dots, and 'Password (again):' with a masked password of ten dots and the text '(verification)' to its right. Below the fields is a yellow 'Register Password' button with a mouse cursor pointing to it.

This next page is the message to tell you that the Email Confirmation Request has been sent to the Email address you entered. Please check your Email to find this message. You have 48 hours to reply to the Email message and verify your Email and password.

The screenshot shows the 'Confirmation E-Mailed' message. At the top, there is a blue header with the LSoft logo and 'LISTSERV 14.5'. Below the header, the title 'Confirmation E-Mailed' is centered. The main content area contains the following text: 'Your password registration request has been accepted. For your protection, the password will not be activated just yet (anyone could have completed this form using your e-mail address). To activate your password, simply follow the instructions which have been e-mailed to you at *softprose1@yahoo.com*. Please wait until you receive a message from LISTSERV saying "Your new password was registered successfully" before trying to use it with the WWW interface.'

The screenshot shows an email inbox. At the top, the word 'Inbox' is displayed. Below it, there is a 'View: All Messages' dropdown menu and navigation links: 'First | Previous | Next | Last'. There are four buttons: 'Delete', 'Spam', 'Mark', and 'Move...'. Below the buttons is a table with the following columns: 'Sender', 'Subject', 'Date', and 'Size'. The table contains one row of data:

| <input type="checkbox"/> | Sender                          | Subject                                    | Date             | Size |
|--------------------------|---------------------------------|--|------------------|------|
| <input type="checkbox"/> | LISTSERV@<br>LISTSERV.ICORS.ORG | Command confirmation request<br>(2362D657) | Mon Oct 30, 2006 | 3k   |

In your Email message from ICORS.ORG to confirm this Login, there is a link for verification. Click on this link to open ICORS.ORG and to validate and activate your new login Email address and password.

Another option is to select REPLY to the message, and then make the BODY (the text) of the message just the word "ok" without the quotes. This will also verify the Email account the same as clicking on the link inside the Email.

```
Your command:

                PW REP *****

requires confirmation. To confirm the execution of your command,
simply
point your browser to the following URL:

http://listserv.icors.org/SCRIPTS/WA-ICORS.EXE?OK=2362D657

Alternatively, if you have no WWW access, you can reply to the
```

Once you have clicked on the link, you will be returned to ICORS.ORG in a Validation screen: In the left side menu there is a link: "Log In". Press this to use your new password.

|                                     |  |
|-------------------------------------|--|
| <b>Execute Command</b>              | <b>OK 2362D657</b>                             |
| <a href="#">Subscriber's Corner</a> | Confirming:                                    |
| <a href="#">Server Archives</a>     | > PW REP *****                                 |
| <a href="#">List Management</a>     | Your new password was registered successfully. |
| <a href="#">List Moderation</a>     |  |
| <a href="#">Help</a>                |  |
| <a href="#">Log in</a>              |  |

Log into ICORS.ORG. Note that your login will "stick" until you are logged off, as ICORS.ORG uses a browser's "cookie" to keep you logged in.

If your browser does not accept cookies automatically, you may need to hit an "accept" dialog. (If your browser won't accept cookies at all, you probably don't use the Internet much...)

**Login Required**

Please enter your e-mail address and your LISTSERV password (*not* the password you use to login to your computer or read your mail), and click on the "Login" button. If this is the first time you see this dialog, or if you have forgotten your password, you will need to [get a new LISTSERV password](#) first.

E-Mail Address:

Password:

For your convenience, logging in defines a cookie in your browser, which is removed when you log off.

ALMOST DONE. Now you should be logged into ICORS.ORG. This next screen is all about the cookie, and their mechanism for maintaining your ICORS.ORG login until you specifically click a link to Log Off.

Although it is not obvious, the way to continue is buried in a link in this text. Look for the text that says "[follow this link](#)" and click it to continue. (This also tests the new cookie.)

**LISTSERV 14.5**

**Password Saved**

Your web browser has been instructed to save your password in a "cookie" on your hard disk. Not all web browsers, however, support cookies. Cookies may also have been disabled in the browser's "Preferences" menu (sometimes called "Options" or "Settings"). To confirm that your password has been successfully saved as a cookie, please [follow this link](#). If this brings you back to the "Login Required" screen, the cookie has not been accepted by your browser and you will need to try again after reconfiguring your preferences or upgrading to a more recent browser.

**Click on THIS TEXT "[follow this link](#)" to continue!**

l "Options" or "Settings"). To confi  
, please [follow this link](#). If this h  
has not been accepted by your brows  
preferences or upgrading to a more r

Enter your Email address to Join the MMLIST.

You can also change your preferences here from the default.

(These options will also be available later to be changed at any time.)

We suggest leaving these settings on the "Default", and changing them later if you wish.

See "**Choosing User Options**" below for details.

After entering your Email Address and (OPTIONAL) Member name information, press the button to "Join MMLIST".

## Join or Leave the MMLIST List

This screen allows you to join or leave the MMLIST list. To confirm your identity and prevent third parties from subscribing you to a list against your will, an e-mail message with a confirmation code will be sent to the address you specify in the form. Simply wait for this message to arrive, then follow the instructions to confirm the operation.

Alternatively, you can [login with your LISTSERV password](#) (if you have one) and update your subscription interactively, without e-mail confirmation.

**Your E-Mail Address:**

**Your Name:**

### **Subscription Type:**

- Regular [NODIGEST]
- Digest (traditional) [NOMIME DIGEST]
- Digest (MIME format) [NOHTML MIME DIGEST]
- Digest (HTML format) [HTML DIGEST]
- Index (traditional) [NOHTML INDEX]
- Index (HTML format) [HTML INDEX]

### **Mail Header Style:**

- Normal LISTSERV-style header [FULLHDR]
- LISTSERV-style, with list name in subject [SUBJECTHDR]
- LISTSERV-style, short [SHORTHDR]
- "Dual" (second header in mail body) [DUALHDR]
- sendmail-style [IETFHDR]

### **Acknowledgements:**

- No acknowledgements [NOACK NOREPRO]
- Short message confirming receipt [ACK NOREPRO]
- Receive copy of own postings [NOACK REPRO]

### **Miscellaneous:**

- Mail delivery disabled temporarily [NOMAIL]
- Address concealed from REVIEW listing [CONCEAL]

This same screen will now change with a message at the top to indicate that a confirmation Email to join the MMLIST has been sent to the Email address you entered. Open your Email account to find this Validation message from ICORS.ORG.

## Join or Leave the MMLIST List

**A confirmation request is being sent under separate cover.**

This screen allows you to join or leave the MMLIST list. To confirm your identity and prevent third parties from subscribing you to a list against your will, an e-mail message with a confirmation code will be sent to the address you specify in the form. Simply wait for this message to arrive, then follow the instructions to confirm the operation.

### Using Subscriber's Corner

The Subscriber's Corner is where you manage your user settings for any ICORS.ORG Mailing Lists available under this Email Address and password login.

The primary area of interest is the blue and grey List Control, located towards the bottom of the page. This is where you can access User Options for MMLIST.

The List Control is described below.

## Welcome to Subscriber's Corner

On this page, you can see all the lists you are subscribed to. The list table can display [selected subscription settings](#) for each list.

You can do the following:

- [Signoff](#) from one or more lists.
- [Change your subscription settings](#) on one or more lists.

### Report Columns:

**Hide Help**

Select the columns for the report, then press "Submit":

|   |  |   |  |                                       |
|---|--|---|--|---------------------------------------|
| <input type="checkbox"/> <a href="#">Mail Style</a>   | <input type="checkbox"/> <a href="#">Mail Status</a> | <input type="checkbox"/> <a href="#">Header Style</a> | <input type="checkbox"/> <a href="#">HTML</a>              | <input type="button" value="Submit"/> |

Do not send e-mail notification

## Using the List Control:

It is important to understand the List Control on the Subscriber Corner page.  
(There will be one of these controls for each List that you are subscribed to.)

**WARNING: It is deceptively simple to accidentally unsubscribe from a list using this control.**

The List Names as shown contain TWO LINKS, with different actions.

MMLIST [Post]

The first link ("MMLIST") gives you access to your personal "Subscription Settings".  
The second link ([Post]) opens a web form for posting messages to the List.

The screenshot shows a web interface for managing list subscriptions. At the top, a blue banner reads "You are subscribed to 1 List as softprose1@yahoo.com". Below this is a table with a header "List Names" and an upward arrow. The table contains one entry: "MMLIST [Post]". To the left of the table is a column with checkboxes, including one labeled "Invert". Below the table is a section with a checked checkbox for "Do not send e-mail notification" and a "Submit Changes" button. A dropdown menu is open over the "MMLIST [Post]" entry, showing "Subscribe" and "Unsubscribe" options.

## TO UNSUBSCRIBE FROM MMLIST:

Select Unsubscribe at the bottom of the List Control.

Check the box on the left side of the List Name.

Press "Submit Changes" to Unsubscribe.

(This ends the subscription completely. Note that there is also a "No Mail" User Option.)

## Choosing User Options

There are a range of User Options available for each individual list.

Two popular choices are Digest v/s Regular mail (Digest is a group of messages in one Email), and Disabling Mail Delivery. (For example, some users don't want to receive list messages when they are preoccupied with a project, or away on a trip.)

MMLIST does not currently support MIME or HTML Mail. All messages are sent as Plain Text.

Concealing your address is meaningless with MMLIST. We do not release Subscription Lists.

(Much of the text below was provided courtesy of the HELP text from ICORS.ORG.)

The screenshot shows a "Subscription Type:" section with six radio button options:

- Regular [NODIGEST]
- Digest (traditional) [NOMIME DIGEST]
- Digest (MIME format) [NOHTML MIME DIGEST]
- Digest (HTML format) [HTML DIGEST]
- Index (traditional) [NOHTML INDEX]
- Index (HTML format) [HTML INDEX]

**Regular (DEFAULT)** With a "regular" subscription, you receive individual postings immediately, as they are processed by the Listserv system.

**Digest (traditional), Digest (MIME format), and Digest (HTML format)** options.

NOTE: MMLIST sends all messages as Plain Text.

Select "traditional" if you want to use the Digest option.

With a "digest" subscription, you receive larger messages (called "digests") at regular intervals, usually once per day or once per week. These "digests" are collections of individual list postings. Some lists are so active that they produce several digests per day.

Digests are a good compromise between reading everything as it is posted and feeling like the list is clogging your mailbox with a multitude of individual postings.

**Index (traditional) and Index (HTML format)**

With an "index" subscription, you receive short "index" messages at regular intervals, usually once per day or once per week. These "indexes" show you what is being discussed on the list, without including the text of the individual postings. For each posting, the date, the author's name and address, the subject of the message and the number of lines is listed. You can then download messages of interest from the server (the index contains instructions on how to do that).

An index subscription is ideal if you have a slow connection and only read a few hand-picked messages. The indexes are very short and you do not have to worry about long download times. The drawback of course is that you need to reconnect to order messages of interest from the server.

You can choose to have the index sent to you in either a traditional format (plain text) or in HTML format with hyperlinks.

| <b>Mail Header Style:</b>        |   |              |
|----------------------------------|---|--------------|
| <input checked="" type="radio"/> | Normal LISTSERV-style header              | [FULLHDR]    |
| <input type="radio"/>            | LISTSERV-style, with list name in subject | [SUBJECTHDR] |
| <input type="radio"/>            | LISTSERV-style, short                     | [SHORTHDR]   |
| <input type="radio"/>            | "Dual" (second header in mail body)       | [DUALHDR]    |
| <input type="radio"/>            | sendmail-style                            | [IETFHDR]    |

**Normal LISTSERV-style header (DEFAULT)** "Full" mail headers (normally the default), containing Internet routing information, MIME headers, and so forth.

**LISTSERV-style, with list name in subject** "Full" mail headers (like the default) except that a "subject tag" is added to the subject line of mail coming from the list. If there is no subject tag defined in the list's configuration, the name of the list will be used. This can be very useful for sorting and filtering mail.

**LISTSERV-style, short (advanced option)** These headers are similar to the normal LISTSERV-style header except that Internet routing information and MIME headers are removed.

**"Dual" (second header in mail body)** Dual headers are regular short headers followed by a second header inside the message body. This second header shows what list the message is coming from ('Sender:'), the name and address of the person who posted it ('Poster:'), the poster's organization, if present, and the message subject. Dual headers are helpful if your mail client does not preserve the original return e-mail address.

**sendmail-style** (advanced option) This option selects sendmail-style headers, i.e. an exact copy of the original, incoming mail header with the addition of a 'Received:' line and of a 'Sender:' field. Some technical people prefer this type of header.

|                          |   |                    |
|--------------------------|---|--------------------|
| <b>Acknowledgements:</b> | <input type="radio"/> No acknowledgements                     | [NOACK<br>NOREPRO] |
|                          | <input type="radio"/> Short message confirming receipt        | [ACK NOREPRO]      |
|                          | <input checked="" type="radio"/> Receive copy of own postings | [NOACK REPRO]      |

**No acknowledgements** LISTSERV will not send any acknowledgement at all when you post to the list. This is probably not a good setting unless you really do not want any feedback from LISTSERV as to whether or not your posting was received and distributed.

**Short message confirming receipt** Typically this is the default setting, although it can be overridden by the list owner. If you choose this setting, LISTSERV will send you a short message whenever you post to the list, confirming the distribution of your message and telling you how many people it was sent to.

**Receive copy of own postings (DEFAULT)** Some people prefer this setting over the short acknowledgement message. It tells LISTSERV to send you a copy of your own postings, so that you can see exactly how it appeared on the list (useful if you are behind an unreliable gateway or firewall).

|                       |  |           |
|-----------------------|--|-----------|
| <b>Miscellaneous:</b> | <input type="checkbox"/> Mail delivery disabled temporarily    | [NOMAIL]  |
|                       | <input type="checkbox"/> Address concealed from REVIEW listing | [CONCEAL] |

**Mail delivery disabled temporarily (NoMail)** This option toggles the receipt of mail from the list. You may want to disable mail delivery if you will be away from your mail for an extended period of time.

**Address concealed from REVIEW listing** (NOT Meaningful for MMLIST. We do not and will not publish a Subscriber List.) This option conceals you from the list of subscribers shown by the REVIEW command. Note that the list owner and the LISTSERV administrator can always get the complete list of subscribers, regardless of this setting. Nowadays, most lists are configured so that only the list owner can use the REVIEW command (such as MMLIST), but some lists still allow subscribers to get a listing of all the other participants.

~ This concludes this User Guide to MMLIST at ICORS.ORG ~
